Rising fuel costs worldwide will drive up residential electric rates from 15 to 20 percent or more beginning in January 2009.

For Example, a residential member's 2008 monthly bill of \$150 will be \$173 to \$180 for the same number of monthly kilowatt hours next year.

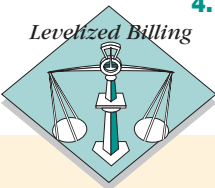

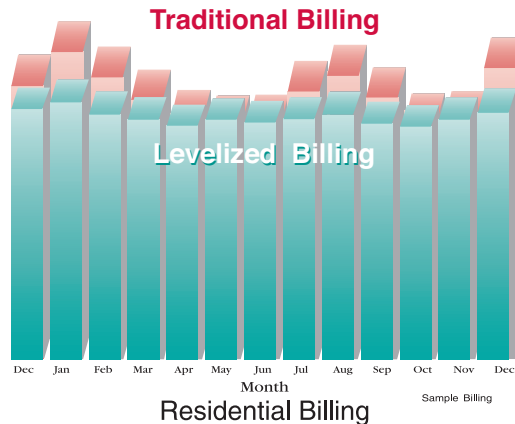

Levelized Billing from York Electric Cooperative can lessen the impact of higher energy costs.

Levelized Billing averages your monthly electric bills over 12 months. By signing up now, your electric bills will be easier to manage once the sharp increase in electricity cost takes effect.

With Levelized Billing, your bill is a “rolling average” based on your past and current energy costs. The amount due will change slightly from month to month based on your usage, guarding you against large monthly fluctuations in your electric bill.

The Levelized Billing program is FREE. The only requirements are:

- 1.** Have and continue to maintain acceptable credit
- 2.** Have a zero balance on your account
- 3.** Be a YEC member for one year at current residential service location
- 4.** Pay bill by original due date each month

Simply fill out this form and mail to York Electric Cooperative or give us a call at 803-684-4248 or 1-800-582-8810. We'll help you levelize your bill right away.

Please Sign Me Up for Levelized Billing.
